

GR-1836-84.S

Description

Our GR-Series of open shelving is ideal for storage of pack-aged material and other bulk items. Open design allows for high visibility and easy access to stored items. Shelving units are constructed from formed 13-gauge steel uprights and are standard with 16-gauge steel reinforced shelves. Shelves are adjustable on 1-1/2" centers and feature a full front and rear support brace. Shelves have a 400 lb capacity each. Uprights are equipped with front to rear braces for added stability. Rear anti-sway braces keep racks solidly in place. Anchor pads for floor mounting are standard.

Dimensions

Multiple size configurations available, please call for options.

Standards

- Formed 13-gauge steel uprights
- (5) Strong reinforced 16-gauge steel shelves
- Shelves adjust on 1-1/2" centers
