

Description

Crafted for durability and functionality, this high-quality dog grooming sink is fabricated with 16-gauge, premium 304-grade stainless steel for unmatched strength and longevity. Fully welded construction ensures a leak-proof design, eliminating the need for caulk. Safety is prioritized with cove molding on all corners, protecting animal clients while enhancing wall integrity.

Designed to accommodate even large dogs, the sink features a double-reinforced front panel for added durability. A heavy-duty, telescoping extension roll-out ramp with non-slip rubber padding makes access safe and easy. For secure grooming, the sink includes two types of animal restraints: a tie-out bar with a floating ring and two eye hooks.

Additional features include four adjustable, bolt-down feet for optimal water drainage, a convenient sprayer hook, and a removable stainless steel front door with a handle that easily lifts out for versatility. This grooming sink combines professional-grade performance with thoughtful design for the ultimate grooming experience.

Dimensions

48"W x 57"H x 24.5"L (15"D Front) | 36.75"H Backsplash
